ADMINISTRATION AND REGISTRATION TOOLS (ART) BACKLOG

The following captures known outstanding issues remaining for Administration and Registration Tools as of 18-Mar-2016. The schedule for completion of the backlog is not determined. Please note that the inclusion of these items does not guarantee eventual completion.

1. **Functionality**: There are various technical tasks that were not considered critical to required functionality. These tasks have been noted during internal tracking and all have reasonable workarounds.

Key	Summary
SB-711	ART: Proctors Should Not Require/Assign Time Periods: Proctors are always available
SB-183	ART: In Create/Modify User, User's email is not in correct format
SB-877	ART: Eligibility recalculation takes a very long time
SB-961	ART: Select Assessments: Grade field is not functioning consistently for few grade levels.
SB-1171	ART: View student schedule report: The number of students displayed within student schedule report does not match the total number of scheduled students within schedule summary
SB-1195	ART: Unexpected error condition while processing user change events can block provisioning and user changes
SB-1227	ART: Upload Student Explicit Eligibility: Field "AssessmentAdministrationAssessmentFamily" does not validate any value
SB-1257	ART-TDS: Number of opportunities configured in ART are not reflected in TDS
SB-1306	ART: Student eligibility is not working if it is based on non-embedded supports or accommodations.
SB-1310	ART: C/M Students: Users can create students for institutions outside of their jurisdiction
SB-1383	ART: Add/Modify Schedule results: The correct schedule results are not displayed as per the schedule rules

SB-1384	ART: Add/Modify Schedule results: The time slots within schedule results are not displayed in order.
SB-1386	ART: Edit Schedule summary : The same student is scheduled for the same test twice
SB-1416	ART: Null Pointer Exception when invalid user is in user upload file. Validation is not performed on entire file.
SB-133	ART: C/M Institutions, C/M Students, C/M Users: Export functionality should have same format as template files
SB-226	ART: Grade Levels are not being correctly searched in Search Assessments
SB-729	ART: Add/ Modify Test: Opportunity field does not populate for 0 or 1 test window
SB-781	ART: Case insensitive SSID/Alternate SSID parameter in studentpackage endpoint
SB-804	ART: Upload U/S: Low performance for database with large number of records
SB-833	ART: C/M Students: English Language Proficiency Level field accepts more than 20 characters, but specification limits it to 20
SB-930	ART: Add/ Modify Test time: When the start or end time fields are edited with a blank value for an existing facility, it does not give an error message
SB-974	ART: DEV Select Assessments: Sorting columns in Ascending/Descending order not functioning properly
SB-1014	ART: Upload users: The delete functionality is not working properly
SB-1051	ART: Add/Modify Accessibility Equipment: When special characters are added as value for responsible district identifier within Equipment rules it accepts the value without errors
SB-1079	ART: Add/Modify Test Time: The error message displayed for invalid date format is incorrect
SB-1091	ART: Assessment: Grade column showing incorrect partial information
SB-1186	ART: Upload Students: Birth Date validation showing incorrect birth year message
SB-1187	ART: Upload Students: Unnecessary message displayed for "FirstEntryDateIntoUSSchool" field for birth date validation
SB-1192	ART: Upload Student Explicit Eligibility: Field validations for AssessmentAdministrationAssessmentFamily is not consistent in TA and ART

SB-1307	ART: C/M Institutions: State filter dropdown in search show all states even for users with tenancy limited to one state	
SB-1325	ART: C/M Students: User cannot create students for schools parented to Group of Schools	
SB-1332	ART: C/M Users: Warning message about losing changes appear even when no changes have been made	
SB-1390	ART: Add/Modify Schedule Results : The arrows keys (icons) within eligible student selection is not working	
SB-1402	ART: Participation Reports: Details: Dropdowns become empty after validation	
SB-1413	ART: C/M StudentGroups : Search for 'Student Group Name' and 'Owner Email' displaying results only for the whole text	
SB-1414	ART: Participation Reports: Tenancy error can cause application error.	
SB-1415	ART/TIS/TDSDLL: Specification mismatch: EnglishLanguageProficiencyLevel	
SB-1231	ART: Add/Modify Accessibility Equipment: New button should be disabled for School and District level users	
SB-1422	ART: Client Configuration : On trying to hide "GroupOfStates" throws an unknown application error	

Table 1: Known Functionality Issues

2. **Cosmetic**: These represent minor user interface (UI) issues in Administration and Registration Tools (ART) which do not affect the functionality of the application. Examples include improving the appearance of error messages or text alignment issues. Often these issues are inconsequential and/or have a reasonable workaround.

Key	Summary	
SB-98	ART: C/M Students: Labels overlapping	
SB-141	ART: Exporting Assessment info from "Add/Modify assess info" screen yields date+garbage string for all output formats	
SB-167	ART: In Create/Modify Institutions, for GroupOfInstitutions Parent External id displays more than 20 characters.	

SB-715	ART: Form label tags are not associated with valid Form input controls
SB-748	ART: Create/Modify StudentGroups: The field Responsible District Identifier is not displayed properly
SB-864	ART: Few column headers when exported are not consistent/matching with that of GUI
SB-918	ART: Upload Students: After clicking on Validate, wrong field value is displayed
SB-920	ART: Dev Select Assessment: Calendar icon misalignment
SB-929	ART: Add/Modify Test Time: "Name" search field does not match with column heading in the table: "Facility Name"
SB-952	ART: Add/Modify Assessment Info: Opportunity field appears blank when the user adds more than 1 test window
SB-975	ART: DEV Create/Modify Institutions: Wrong Error messages for District ID and District Name
SB-983	ART: C/M Proctor Schedule Report: Calendar is not displayed properly in Firefox
SB-1110	ART: Permissions: 403 error displayed when the permissions for any form of reports are disabled.
SB-1119	ART: C/M Users: Associated Entity Id dropdown overlapping.
SB-1219	ART: When creating a student and selecting the first entry date into school, the text box and the calendar dates do not match
SB-1226	ART: Dev: Overlapping text fields
SB-1229	ART: Add/Modify Assessment Information: 'Identifier' field value overlaps with 'Name' field value
SB-1423	ART: Manage Subjects : Selecting a value from "New Subject" drop down (in merge) will hide some text
SB-1472	ART: Log in - log out tenancy error
SB-1475	ART: MENU button disappears after 2nd click, and other navigation menu issues
SB-135	ART: Blank spaces in "Add/ Modify assessment" screens GRID
SB-144	ART: Change Labels for Select Tests

SB-146	ART: Provide human-readable flags in Test Spec Bank Test Search
SB-148	ART: Change Label for Test Search
SB-165	ART: Validation Error message for FirstName and LastOrSurname should be modified
SB-223	ART: Alignment of the page numbers in IE 11 should be corrected
SB-232	ART: Few fields are misaligned for different resolution for Assessments in Internet Explorer 11
SB-236	ART: Few fields are misaligned for different resolution for Create/Modify Institutions in Internet Explorer 11
SB-241	ART: Few fields are misaligned for different resolution for Create/Modify Students in Internet Explorer 11
SB-242	ART: Few fields are misaligned for different resolution for Create/Modify Users in Internet Explorer 11
SB-243	ART: Few fields are misaligned for different resolution for Create/Modify StudentGroups in Internet Explorer 11
SB-791	ART: Manage Subjects: The error message for "Subject code is required" is not displayed correctly.
SB-818	ART: Add/Modify Test Platforms: Positioning of fields is not consistent with other windows
SB-853	ART: Participation Reports: Label for Page Numbers overlap in Participation Reports in Summary tab
SB-931	ART: Sorting arrows for few columns are not aligned properly in the table
SB-934	ART: Participation Reports: State field is misaligned
SB-935	ART: Add/ Modify test time: Unnecessary error messages are displayed for blank availability field
SB-938	ART: Add/ Modify Test time: The error displayed for not entering the time period when availability is selected as "not available" is displayed incorrectly.
SB-953	ART: Upload IUS, Access Denied: Parent Entity
SB-960	ART: Add/ modify schedule results: The state is not displayed properly

SB-1050	ART: Add/Modify Schedule Results: The entry grade level dropdown is not displayed properly
SB-1389	ART: Add/Modify Schedule Results: When there is no accessibility equipment available the select seat configuration shows unnecessary brackets
SB-1391	ART: View proctor/student schedule report: The calendar is not displayed properly
SB-1418	ART: Manage Subjects : Validation message for merging subjects has few corrections
SB-1467	ART: Uploads: Errors are misaligned and are in wrong order.
